

AT&T Privacy Policy

REVISED FEBRUARY 15, 2019

Whenever you do something like buy one of our products, watch a show or download an app, information is created. Because we know your privacy is important, we have a Privacy Policy to explain how we collect, use and protect that information. There's a quick summary below, and the actual policy is written in an easy to understand "Frequently Asked Questions" (FAQ) format. We want to simplify this explanation, so you can make informed choices about your privacy, and then spend the rest of your time enjoying our products and services.

A Quick Summary of Our Privacy Policy

Our Privacy Policy applies to your use of all products, services and websites offered by AT&T and our AT&T affiliates, such as DIRECTV, unless they have a different privacy policy. Because some apps, including some AT&T and DTV branded apps, require additional information, or use information in different ways, they may have their own privacy policies and/or terms and conditions. These apps may also offer you additional choices for managing your personal information.

Our privacy commitments

- We don't sell your Personal Information to anyone for any purpose. Period.
- We keep your Personal Information in our business records while you are a customer, or until it is no longer needed for business, tax or legal purposes.
- We will keep your information safe using encryption or other appropriate security controls.

1. To whom does the Policy apply?

This Privacy Policy applies to customers and users of AT&T products and services, except customers and users of products or services provided by an affiliate or an application with a different privacy policy.

2. What does this Policy cover?

This Privacy Policy covers our practices regarding the information we collect about our customers and users (how we collect it and how we use it). Use of our products and services, as well as visits to our websites, are subject to this Privacy Policy.

3. Do you have any Privacy Policies other than this one?

Yes. Some AT&T affiliates or applications may have separate privacy policies that describe how they collect, use and share information they collect from their customers and users. When we share Personal Information with those affiliates or combine it with information from those applications we protect it in a way consistent with this Privacy Policy.

Additionally, some of our applications may have terms and conditions that describe other privacy commitments or choices in addition to those in this Privacy Policy.

Some areas outside the United States require us to work a little differently. In that case, we may adopt separate privacy policies as necessary to reflect the requirements of applicable local laws.

The Joint AT&T EchoStar Privacy Policy for AT&T|DISH Network Customer Account Information remains in effect for AT&T|DISH subscribers.

4. What about my family members and other users of my AT&T account? Does this Policy apply to them?

Yes. You're responsible for making sure all family members or other users under your account understand and agree to this Policy. Get everyone together and talk about it. Or, send it by e-mail to make sure they're on board. Hang it on the fridge. Up to you, just share it!

5. When is information not covered by this Policy?

If you purchase or use the products or services of an AT&T affiliate that has a different privacy policy than this one, that privacy policy will apply.

Additionally, this Privacy Policy does not apply any time you give information to companies other than AT&T. Some examples are:

- When you use a non-AT&T Wi-Fi service;
- When you download applications or make purchases from other companies while using our Internet or wireless services;
- When you go to a non-AT&T website from one of our websites or applications (by clicking on a link or an advertisement, for example);

- When you give your information to another company through a website co-branded by AT&T but controlled by the other company;
- If you use public forums - such as social networking services, Internet bulletin boards, chat rooms, or blogs – the information is publicly available, and we cannot prevent distribution and use of that information by other parties;
- Information about your location, usage and the numbers you dial when you're out and about and roaming on the network of another company;
- When you purchase or use non-AT&T products (such as wireless devices, internet browsers and mobile applications) in combination with our services;
- When we license our brand to other companies for their use in marketing and selling certain non-AT&T products and services, information you give those companies is not covered by this Policy.

6. Can my information be covered by this Policy and other privacy policies at the same time?

Yes, that can happen. For example:

Sometimes we will work with other, unaffiliated companies to provide a service. In that case your information may be subject to this Policy and that of the other company. For example, you purchase one of our products or services from a retailer like Best Buy or Amazon.com, any information you provide to them may be subject to both their policy and ours.

If you connect to our Wi-Fi service through another network, such as one provided in a hotel, airport or other venue, any information collected from your use of that network could be subject to either the AT&T Privacy Policy or the venue policy, and sometimes both. The same thing applies if you connect to our network through your employer's corporate network, or any network operated by a non-AT&T company.

We think it's a great idea to take a look at the privacy policies of any companies you do business with to learn how they use your information.

7. What about business customers?

We may have written product or service agreements with our business customers that contain specific provisions about confidentiality, security or handling of information. When one of these agreements differs from or conflicts with this Policy, the terms of those agreements will apply. In all other instances, the terms of this Policy apply.

Visit these links for more information. Definitions 

The information we collect

Here's some of the information we collect:

- **Account Information** includes your name, address, telephone number, e-mail address, service-related details such as payment data, security codes, service history and other information like that;
- **Network Performance & Usage Information** tells us how you use our networks, our products and our services, and how well our equipment and networks are performing;
- **Web Browsing & Wireless Application Information** tells us about the websites you visit and the mobile applications you use on our networks;
- **Location Information** tells us where your wireless device is located, as well as your ZIP-code and street address;
- **TV Viewing Information** tells us about which programs you watch and record and similar information about how you use our video services and applications.

What information do you collect?

We may collect different types of information based on your use of our products and services and on our business relationship with you.

- **Account Information:**
 - **Contact Information** that allows us to communicate with you. We get this information when you order or register for our services. This would include information like your name, address, telephone number and e-mail address.
 - **Billing Information** related to your financial relationship with us, such as the services we provide to you, the telephone numbers you call and text, your payment history, your credit history, your credit card numbers, Social Security number, security codes and your service history.
- **Technical & Usage Information** related to the services we provide to you, including information about how you use our networks, services, products or websites. Some examples include:
 - **Equipment Information** that identifies the equipment on our networks, such as equipment type, device identifiers, device status, serial numbers, settings, configuration and software.
 - **Network Performance & Usage Information** about the operation of the equipment, services and applications you use on our networks. Examples of this might include wireless device location, the number of text messages sent and received, voice minutes used, calling and texting records, bandwidth used, and resources you use when uploading, downloading or streaming data to and from the Internet. We also collect

information like transmission rates and delays, data associated with remote monitoring services and security characteristics.

- Some Network Performance & Usage Information and some Billing Information is Customer Proprietary Network Information or "CPNI." Unique rules apply to CPNI. Go [here](#) to learn more about what it is, how we use it and the choice you can make about that use.
- **Web Browsing & Mobile Application Information** such as IP addresses, URLs, data transmission rates and delays. We also learn about the pages you visit, the time you spend, the links or advertisements you see and follow, the search terms you enter, how often you open an application, how long you spend using the app and other similar information.
- **Location Information** includes your ZIP-code and street address, as well as the whereabouts of your wireless device. Location information is generated when your device communicates with cell towers, Wi-Fi routers or access points and/or with other technologies, including the satellites that comprise the Global Positioning System.
- **TV Viewing Information** is generated by your use of any of our satellite or IPTV (U-verse) services. These services may include video on demand, pay per view, DVR services, applications to watch your TV on the go for tablet or smartphone (such as the TV Everywhere app) and similar AT&T services and products, including the programs and channels you and those in your household watch and record, the times you watch and how long you watch. It also includes information like the interactive channels and games provided by U-verse or DIRECTV. We also collect information related to your use and interaction with the equipment in your home, including the TV receivers, set top boxes, remotes and other devices you may use to access our services.

How we collect your information

Here are the three basic ways we collect it:

- We get information from you when you do things like make a purchase from us;
- We collect it from how you use our products and services;
- We obtain information from other sources, like credit agencies, marketing companies, and other service providers.

In three basic ways:

- **You Give It To Us** when you make a purchase or set up an account with us;

- **We Automatically Collect Information** when you use our networks, products and services. For example, we use network tools to collect your call records; we collect wireless device location from our networks and from your device; and we also use cookies and similar technologies , web server logs and other technologies.
- **We Obtain Information from Outside Sources** like credit reports, marketing mailing lists, and commercially available geographic and demographic information along with other publicly available information, such as public posts to social networking sites.

How we use your information

Here are just some of the ways we use it. To:

- Provide services and improve your customer experience;
- Send you bills for your services;
- Respond to your questions;
- Address network integrity, help in fraud prevention and network and device security issues;
- Do research and analysis to maintain, protect, develop and improve our networks and services;
- Let you know about service updates, content, offers and promotions that may be of interest to you;
- Improve entertainment options;
- Deliver Relevant Advertising;
- Create External Marketing & Analytics Reports;
- Assist in the prevention and investigation of illegal activities and violations of our Terms of Service or Acceptable Use Policies.

We use your information to improve your experience and to make our business stronger. Some examples include:

- Providing and managing your services, responding to your questions and addressing problems;
- Delivering customized content, or advertising, such as personalized offers for products and services that may be of interest to you;
- Communicating service updates, offers and promotions;
- Protecting network integrity and security, ensuring quality control, optimizing capacity and preventing misuse;
- Network enhancement planning, engineering and technical support;

- Conducting research and analysis for maintaining, protecting and developing our networks and our services;
- Preventing illegal activities, suspected fraud, and potential threats to our networks and our customers' networks;
- Investigating violations of our Terms of Service, Acceptable Use Policies, or other service conditions or restrictions; and
- Protecting the safety of any person.

1. Do you use my information to send me advertising?

Yes. We may use information like the preferences you have expressed and interests you have demonstrated on our websites, in our stores and through use of our products and services, to provide you with marketing information and advertisements for our products and services. Those ads may be delivered on our websites and mobile applications. This is called "first party" advertising. It is part of our service relationship and you are not able to opt-out from this type of advertising.

We or our advertising partners may use Anonymous Information gathered through cookies and similar technologies , as well as other Anonymous Information and Aggregate Information that either of us may have to help us tailor the ads you see on non-AT&T sites. For example, if you see an ad from us on a non-AT&T sports-related website, you may later receive an ad for sporting equipment delivered by us on a different website. This is called Online Behavioral Advertising, which is a type of Relevant Advertising.

2. Do you use my information for other types of Relevant Advertising?

Yes. We may also use information we get through your use of our products and services, from our advertising partners, and information like your age and gender to deliver Relevant Advertising that is not Online Behavioral Advertising. We combine your Anonymous Information with that of other users into aggregate "audience segments". These segments are based on particular interests and/or factual characteristics that everyone in that audience segment is likely to share. We might use that information to send you advertisements that are relevant to those interests or characteristics. When we use this information to deliver, and measure the effectiveness of, advertisements we associate it with other information, like advertising IDs, device IDs, or similar identifiers. We are careful to only use non-personally identifiable information to serve Relevant Advertising with aggregate audience segments that are large enough that you can't be identified individually.

In some cases you may agree to participate in advertising offers or programs through loyalty programs, when you download a mobile app, or other similar programs. In those cases, you will be told about the advertising program when you sign up. For more information about those advertising programs, please consult the terms, conditions, and policies of the specific application or loyalty programs you are interested in or have joined.

3. Do you use the location of my device for advertising purposes?

Yes. We use information about the locations you visit in order to create combined wireless location interest characteristics that can be used to provide Relevant Advertising to you and others like you.

Location characteristics are types of locations - like "movie theaters". People who live in a particular geographic area (a city, ZIP-code or ZIP+ 4 code, for example) might appear to have a high interest in movies, thanks to collective information that shows wireless devices from that area are often located in the vicinity of movie theaters. We might create a "movies characteristic" for that area, and deliver movie ads to the people who live there.

We may associate your wireless device with a particular geographic area, such as a city, ZIP-code, or ZIP + 4 code, based on your billing address or the cell towers you connect with most frequently.

In addition to other privacy protections, the process we use to create our audience segment includes a requirement that the ZIP + 4 or other geographic area to which a wireless location is assigned must contain a minimum of 25 households. ZIP + 4 codes with less than 25 households are combined with other ZIP + 4 codes to satisfy this requirement.

4. What's in it for me?

Just like the name says, you get advertising that's more relevant to your interests. For example, if a particular audience segment, like adults between the ages of 21 and 25 with a certain income range, has demonstrated a greater interest in movies than other segments, we might send them a movie ad for a movie geared toward young adults. This is just one way we deliver content that's more relevant.

5. How do you use information about the programs I watch on TV to advertise to me?

We combine information about the shows that our customers are watching with their common interests to help us figure out what types of advertising they might be interested in seeing.

It sometimes works like this: We look at the group of people watching a particular show. We identify common characteristics within that group. We use those characteristics to identify and deliver advertising that might be most relevant to watchers of that TV show. We might also deliver that same advertising during shows that appear to have similar audiences.

6. Do I ever have a chance to tell you what I'm personally interested in?

Yes. With some programs offered or powered by AT&T you can sign up to receive text-message offers from businesses that are near your current location and match the interests you've selected. You can change your mind at any time and stop participating in these programs.

1. What is location information?

Exactly what it sounds like! It includes your ZIP-code and street address, as well as the whereabouts of your wireless device.

2. How is it used?

We use it in all kinds of ways, here are some examples:

- **We Provide Wireless Voice and Data Services:** We monitor, collect and use wireless location information, together with other information we get from our network and your wireless device, to maintain and improve our network. We also might use location information with your consent to provide you with a customized experience. For example, when you dial 411 Directory Assistance for a business telephone number, we might use your wireless location information to return the number of the business location closest to you.
- **Location Based Services (LBS):** Your device can be used to access a ton of services based on location. We offer these services via applications that have been pre-loaded or downloaded by you on your device. LBS also may be provided via text message or other functionality. We'll give you prior notice and ask for your consent when your location is used or shared. The form of consent may vary, but will be appropriate for the type of LBS you use.
- **LBS from other providers:** With your consent (to us or the other company) we also may enable LBS from other companies by providing location information to their developers or location service providers.
- **We use it for Advertising**

3. How accurate is wireless location information?

It depends on the technology we're using. For example, we can locate your device based on the cell tower that's serving you. The range could be up to 1,000 meters in any direction from the tower in urban areas, and up to 10,000 meters in rural areas. Wi-Fi networks provide more accurate location information, associating you with the place where the network is located - like a coffee shop - or to an area within or around that place.

Services such as 411, 911, a "friend locator" application or a navigation/mapping application, require more precise information. So for those we develop a more precise estimate of location by associating the serving cell tower ID with other information, like the latitude and longitude of the tower, radio frequency parameters, GPS information and timing differences in radio signals. Depending on a variety of factors, those methods may estimate the location of your device to within 30 to 1000 meters.

4. Are you the only ones who can locate my wireless device?

Other companies may also be able to locate your device. For example, your handset manufacturer and your operating system provider may be able to locate your device. If you download mobile applications, those apps may be able to obtain your location directly from your handset or the operating system. Mobile applications that give you access to your employer's network may also give your employer the ability to locate your device.

We urge you to review policies of all providers.

1. Where do you get Anonymous Information?

Sometimes we'll collect information about how you use our products using cookies and other similar technologies . This information doesn't include your Personal Information and is considered anonymous. When we collect information that identifies you personally, we may anonymize it for certain purposes. We remove data fields (such as name, address and telephone number) that can reasonably be used to identify you. We also use a variety of statistical techniques and operational controls to anonymize data. Anonymizing information is one of the tools we use to protect your privacy.

2. Tell me more about aggregate information.

Aggregate information is a form of Anonymous Information. We combine data that meet certain criteria into anonymous groups. For example, we might want to compare how customers in Beverly Hills, CA (or any city, county or ZIP-code) use their cell phones to how customers in Boulder, CO use their cell phones. In order to do that, we would combine customer data in each of the geographies into anonymous groups and look at all that aggregate data to understand how the two groups are different or similar.

How we share your information

Some examples of who we share your Personal Information with:

- Across our companies to give you the best customer experience and to help you get everything we have to offer.
- Other, non-AT&T companies that perform services on our behalf only as needed for them to perform those services. We require them to protect your information consistent with our Policy.
- With other companies and entities, to:
 - Respond to 911 requests and other emergencies or exigencies;
 - Comply with court orders and other legal process;
 - Assist with identity verification, and preventing fraud and identity theft;
 - Enforce our agreements and property rights; and
 - Obtain payment for products and services including the transfer or sale of delinquent accounts to third parties for collection

1. Do you provide information for phone books and Caller ID?

Yes and No.

Yes, we share the names, addresses and telephone numbers of our wireline telephone and U-verse Voice customers with businesses that publish directories and provide directory assistance services. We are required by law to do that. You may contact us and we honor your request for non-published or nonlisted phone numbers. Once we provide published listing information to those businesses, they may use, sort, package, repackage and make it available again in different formats to anyone.

Yes, we also provide wireline and wireless calling name and number information for CallerID, and related services like Call Trace, which allow a person receiving a call to obtain the name and number of the party calling them.

No, we do not give listing information for wireless numbers to phone book publishers or directory assistance services without your permission.

2. Do you share my Personal Information internally?

Yes. Our products and services are developed, managed, marketed and sold by a variety of our affiliated companies. We may share Personal Information internally, including with affiliated companies that may have different privacy policies. When we do this we require the affiliated company or companies to protect the Personal Information in a way consistent with this Privacy Policy. We may also combine Personal Information with data derived from an application that has a different privacy policy. When we do that, this Privacy Policy applies to the combined data set. Sharing information in these ways helps us offer you the high quality, seamless and innovative range of products you have come to expect from us. Some of these include:

- Wireless voice, data, Internet, home security, automation and remote monitoring services provided by AT&T Mobility and AT&T Digital Life; and
- The suite of satellite and IPTV services, Voice and High Speed Internet Access services offered by our companies.

If the affiliate relationship with one of our AT&T subsidiaries is not clear, information sharing with that subsidiary is handled as though it is a non-AT&T company. The relationship between AT&T branded companies can typically be identified through the use of the AT&T name or brand, the use of the AT&T "globe" logo, or through advertising, cross-promotional offers, or widely reported news or information in the press or social media that highlights the company as an AT&T affiliate  (like Xandr and our highly publicized merger with the Time Warner family, now called WarnerMedia). Affiliated companies that are not publicly recognized as part of the AT&T family of companies are treated as though they are non-AT&T companies for purposes of information sharing under this policy.

3. Do you share my Personal Information with other non-AT&T companies for them to market to me?

We will only share your Personal Information with other non-AT&T companies for them to use for the marketing of their own products and services when we have your consent.

4. Are there any other times when you might provide my Personal Information to other non-AT&T companies or entities?

Yes. We share your Personal Information with other, non-AT&T companies that perform services for us, like processing your bill. Because we take our responsibility to safeguard your Personal Information seriously, we do not allow those companies to use it for any purpose other than to perform those services, and we require them to protect it in a way consistent with this Privacy Policy. Companies that perform these services may be located outside the United States or the jurisdiction where you reside. If your Personal Information is shared with these companies, it could be accessible to government authorities according to the laws that govern those jurisdictions. There are also occasions when we provide Personal Information to other non-AT&T companies or other entities, such as government agencies, credit bureaus and collection agencies, without your consent. Some examples include sharing to:

- Comply with court orders, subpoenas, lawful discovery requests and other legal or regulatory requirements, and to enforce our legal rights or defend against legal claims;
- Obtain payment or make refunds for products and services that appear on your AT&T billing statements, including the transfer or sale of delinquent accounts or refund obligations to third parties for collection or payment.
- Enforce our agreements and protect our rights or property;
- Assist with identity verification and e-mail address validation;
- Respond to lawful requests by public authorities, including to meet national security or law enforcement requirements;
- Notify, respond or provide information (including location information) to a responsible governmental entity in emergency or exigent circumstances or in situations involving immediate danger of death or serious physical injury; and
- Notify the National Center for Missing and Exploited Children of information concerning child pornography of which we become aware through the provision of our services.

5. Do you share my personally identifiable TV Viewing Information with other, non-AT&T companies?

We don't share your personally identifiable TV Viewing Information with other non-AT&T companies for them to use for the marketing of their own products and services without your consent. We are required to notify you about the special requirements we must follow when it comes to sharing your personally identifiable TV Viewing Information in response to a Court Order:

Notice Regarding Disclosure of Personally Identifiable Information of Satellite and IPTV Subscribers in Response to A Court Order

- In the case of a court order obtained by a non-governmental entity, we are authorized to disclose personally identifiable information collected from TV subscribers as a result of the

subscriber's use of TV service only after providing prior notice to the subscriber.

- In the case of a court order obtained by a governmental entity, we are authorized to disclose personally identifiable information collected from TV subscribers as a result of the subscriber's use of TV service only if, in the court proceeding relevant to the order:
 - The governmental entity offers clear and convincing evidence that the subject of the information is reasonably suspected of engaging in criminal activity and that the information sought would be material evidence in the case; and
 - The subject of the information has an opportunity to appear and contest the governmental entity's claim; and
 - We have provided notice to the subscriber as required by applicable state law.

6. What information do you provide to advertisers?

We may provide reports to advertisers and other business customers about the success of its advertising campaigns. Those reports contain Anonymous Information about the number of times a particular ad was viewed, when it was viewed, whether it was viewed on a TV, a mobile device or a computer, demographics associated with the viewing audience and other similar information. Your Anonymous Information will not be included in aggregate reports about the success of Relevant Advertising campaigns if you have opted-out of Relevant Advertising delivered by AT&T.

7. Do you share Anonymous or Aggregate Information?

Yes, we may share this information with other companies and entities for specific uses, which may include:

- Universities, laboratories, think tanks and other entities that conduct networking, social, behavioral, environmental and other types of scientific research, for the purpose of creating fundamental new knowledge;
- Municipalities, government or other entities that may use this data for purposes such as municipal and transportation planning, and emergency and disaster response coordination;
- Advertisers and related companies for the delivery of advertising and to assess the effectiveness of advertising campaigns.

We share this information in external reports like our External Marketing & Analytics Reports and Metric Reports.

1. Tell me more about the External Marketing & Analytics Program.

We use aggregate information to create External Marketing & Analytics Reports that we may sell to other companies for their own marketing, advertising or other similar uses.

These reports may be a combination of information from wireless and Wi-Fi locations, TV Viewing, calling and texting records, website browsing and mobile application usage and other information we have about you and other customers. You have a choice about whether your Anonymous Information is included in the reports that we sell or provide to other companies.

Some examples of External Marketing & Analytics Reports include:

- Reports for retail businesses that show the number of wireless devices in or near their store locations by time of day and day of the week, together with demographic characteristics or other information about the users (such as device type, age or gender) in those groups.
- Reports that combine anonymous TV Viewing behaviors with other aggregate information we may have about our subscribers to create reports that would help a TV network better understand the audiences that are viewing their programs, those that are not, how frequently they watch, when they watch and other similar information; and
- Reports for device manufacturers that combine information such as device type, make and model with demographic and regional location information to reflect the popularity of particular device types with various customer segments.

2. Do you provide companies with individual anonymous data as part of your External Marketing & Analytics Program?

Yes. For example, we might share anonymous TV Viewing Information with media research companies that combine this data with other information to provide audience analysis services about what shows certain audience segments are watching. When we provide individual Anonymous Information to businesses, we require that they only use it to compile aggregate reports, and for no other purpose. We also require businesses to agree they will not attempt to identify any person using this information, and that they will handle it in a secure manner, consistent with this Policy.

3. Do you use my Anonymous Information in other types of external reports?

Yes, we may use your Anonymous Information to provide Metrics Reports to our business customers, advertisers, and service suppliers. These reports are considered part of the underlying service and we do not sell them to other customers or suppliers.

For example, if you connect to our Wi-Fi service in a hotel, airport or other venue you should know the operator of that venue is our business customer, and that we will provide that operator with Metrics Reports about usage of and communications with the Wi-Fi network in their location. Those reports contain statistical information like:

- The number of devices connecting to the Wi-Fi network, duration of Wi-Fi sessions and the amount of bandwidth used during those sessions; and

- Foot-traffic data, including the numbers of devices inside and outside the store at a given time; the number of new and frequent visitors; where visitors are located within the store (e.g., specific departments or other locations within the venue) and frequency of visits and time spent within the store.

NOTE: When your wireless device is turned on, it regularly sends out signals that enable it to connect to cell towers, Wi-Fi access points or other technologies so that we (and others) are able to provide you with services. These signals can be used to determine your device location. You can turn Wi-Fi to the "off" position on the "settings" feature of your device to prevent the collection of these signals by Wi-Fi equipment in retail stores and other public places.

Another example, we also license video programming from content providers. As part of our agreement, we provide them with Metrics Reports. These reports contain combined measurements and statistical information related to the number of TV subscribers who watched or accessed a particular program at a particular time and other similar measurements.

Your choices and controls

For information about children's safety and parental controls, view our AT&T Smart Controls and DIRECTV Parental Controls (<https://www.att.com/shop/wireless/smartcontrols.html>).

- You have choices about certain types of advertising you get from us;
- You can control whether your Anonymous Information is used in our External Marketing & Analytics Reports;
- You can choose whether to receive marketing calls, e-mails or text messages or certain other communications from us;
- You have a choice about how we use your Customer Proprietary Network Information.

You can choose not to receive some types of advertising online, on your satellite TV service or on your wireless device.

- **Relevant Advertising:** Opt-out of Relevant Advertising delivered by AT&T here (https://cprodmaxx.att.com/commonLogin/igate_wam/controller.do?TAM_OP=login&USERNAME=unauthenticated&ERROR_CODE=0x00000000&ERROR_TEXT=HPDBA05211)
- **Online Behavioral Advertising:** Advertising that is customized based on predictions generated from your visits over time and across different websites is sometimes called "online behavioral" or "interest-based" advertising. In accordance with industry self-regulatory principles, you can opt out of online behavioral advertising from companies who participate in the Digital Advertising Alliance (<http://www.aboutads.info/>) by going to their Consumer Choice Page

(<http://www.aboutads.info/choices/#completed>) or by clicking on this icon  (<http://www.aboutads.info/>) when you see it on an online ad. Opt-out of online behavioral advertising from many other ad networks at the Network Advertising Initiative (NAI) site (<http://www.networkadvertising.org/choices/>).

- **Information about Cookies and Similar Technologies:** To limit collection of data on web sites that may be used for advertising, for information on how to manage cookies and similar technologies  on your computer.
- **Advertising on att.net:** Opt-out of receiving interest-based advertising when using our att.net portal services from companies who participate in the Digital Advertising Alliance (https://urldefense.proofpoint.com/v2/url?u=http-3A__www.aboutads.info_&d=DwMGaQ&c=9wxE0DgWbPxd1HCzjwN8Eaww1--ViDajlU4RXCxgSXE&r=S8Zm4RWz4kBNsLEJ4uRMCSU3jScelpZmyfqvym9FOoc&m=A5NujiozrxO3emOn8eFisEdU4YqD3qcx_sZpwhQ68&s=Cc_Knm5STJKX-XNO-hiGkOpw3DwS5z7qFqR0W9jamDA&e=) by going to its Consumer Choice Page (https://urldefense.proofpoint.com/v2/url?u=http-3A__www.aboutads.info_choices_-23completed&d=DwMGaQ&c=9wxE0DgWbPxd1HCzjwN8Eaww1--ViDajlU4RXCxgSXE&r=S8Zm4RWz4kBNsLEJ4uRMCSU3jScelpZmyfqvym9FOoc&m=A5NujiozrxO3emOn8eFisEdU4YqD3qcx_sZpwhQ68&s=ADbbwbbmGAE5UQ3yZlg0t-fPk-T_9rllTbYqeJTOmAl&e=) or selecting this icon  (<http://www.aboutads.info/>) when you see it on an online ad. This covers att.net email and also the Yahoo! portal.
- **Advertising Offers from Apps and Loyalty Programs:** In some cases you may agree to participate in advertising offers or programs through loyalty programs, when you download a mobile app, or other similar programs. For example, if you have the DIRECTV app, you can find out more about your choices concerning how your DIRECTV viewing information is used and shared here (https://www.directv.com/DTVAPP/content/support/DTVAPP_policy).

1. Do I have choices about receiving first party advertisements from AT&T?

Because first party advertising is part of the service you receive when you visit our websites and use our mobile applications, we don't offer an opt-out for first party advertising.

2. Can I choose not to receive marketing and other types of communication from AT&T?

We realize that unwanted marketing contacts can be a hassle and we've worked hard to meet the expectations of customers and potential customers who have expressed a desire to limit certain types of solicitation communications from us.

- **E-Mail:** Every marketing e-mail we send contains instructions and a link that will allow you to stop additional marketing e-mails for that product or service type. You also can unsubscribe from AT&T marketing e-mails here (<http://www.att.com/remove>).

- **Text Messages:** Opt-out of AT&T marketing text message contacts by replying "stop" to any message.
- **AT&T Consumer Telemarketing:** Ask to be removed from our consumer telemarketing lists by contacting us at one of the numbers listed here. You also can ask the AT&T representative to remove you from our telemarketing lists when you receive a marketing or promotional call from us.
- **AT&T Business Telemarketing:** Where required by local laws and/or regulations, we honor requests to be removed from our telemarketing lists from business customers.
- **Federal Do Not Call:** The FTC maintains a National Do Not Call Registry at donotcall.gov (<http://www.donotcall.gov/>), and some states in the United States may maintain its own Do Not Call Registry. Putting your number on these Registries also may limit our AT&T telemarketing calls to that number.
- **Postal Mail:** To review our Residential Do Not Mail Policy Statement and to limit postal mail solicitations, click here [▶](#). You will still receive billing statements, legal notices, product updates and other similar correspondence, and you may still receive some promotional mailings. All of our practices are designed to satisfy state, provincial and federal legal requirements limiting marketing contacts. Those laws and regulations - such as the requirements governing the state and federal "Do Not Call" lists - generally permit companies to contact their own current and, in some cases, former customers, even when those customers are listed on the federal and state "Do Not Call" lists.
- **Automated Calls or Messages:** In some cases, we will ask for your permission to send you automated calls or messages to your mobile phone. To opt out of these calls or messages from AT&T, please go to Manage Your Privacy Choices (<http://www.att.com/cmpchoice>). As required or allowed by law, even if you opt out, AT&T may continue to contact you with automated calls or messages at the telephone number issued by us for certain important informational messages about your service. For example, we may need to let you know about a problem with your wireless service. Restricting our use of your CPNI will not eliminate all types of our marketing contacts.

3. Can I choose to exclude my Anonymous Information from your External Marketing & Analytics and other similar reports?

Yes. Click here (<https://www.att.com/cmpchoice>) to opt-out. This opt-out also applies to the sharing of your Anonymous Information with other companies for their use in creating marketing and analytics reports. Although this opt out does not apply to Metrics Reports, it will apply if we combine Metrics Report information with other customer information (like demographics) to create reports that we provide to our business customers or service suppliers.

4. What is DNS error assist?

When you mistype a web address, or the address is not working, DNS Error Assist provides an automated list of similar pages – such as possibly the one you meant to type – for your consideration. The service is provided on your AT&T residential broadband connection, and you can opt-out here (<http://www.att.com/cmpchoice>). If you opt-out, you will get a standard “no results found” error message instead of the error-assist page.

5. Are there any other opt-out choices I should know about?

We may use services provided by analytics companies to obtain information about website performance and how you use our mobile applications and other products and services. Go here (<http://www.aboutads.info/choices/>) for more information about the opt-outs made available by some of those vendors, and to make choices about participation. Based on your permission, we may share your mobile device location or other mobile subscriber information with third parties when you use Third-Party Services, such as to prevent fraud when making a bank transaction. If you want to change that permission, you can opt out directly with the third party or you can opt out by going to Manage Your Privacy Choices. These Choices and Controls also are available at rights choices. (/csr/privacy/full_privacy_policy#choice)

1. What is CPNI?

“CPNI” is information about your phone service from us. Your phone service could be a cell phone or any sort of home or business phone. The “information” is things like what kind of services you have, how you use them, or billing information. (Your telephone number, name and address are not considered CPNI.)

2. How is CPNI Used and Disclosed?

We do not sell, trade or share your CPNI with anyone outside of the AT&T family of companies* or our authorized agents, unless required by law (example: a court order). We do use your CPNI internally, however. We may share information about our customers among the AT&T companies and our agents in order to offer you new or enhanced services. For example, we might offer a discount or promotion for Internet or TV services based on your CPNI.

3. How may I limit the use of my CPNI?

AT&T uses technology and security features, and strict policy guidelines with ourselves and our agents, to safeguard the privacy of CPNI. It is your right and our duty under federal law to protect the confidentiality of your CPNI. If you don't want AT&T to use your CPNI internally for things like offers, here is what you can do:

- You can “opt out” online, at att.com/ecpniptout (<http://att.com/ecpniptout>), or
- You can call 800.315.8303 (tel:800.315.8303), any time of day, and follow the prompts, or
- You can speak to a service representative at 800.288.2020 (tel:800.288.2020) (consumer) or 800.321.2000 (tel:800.321.2000) (business).

If you choose to restrict our use of your CPNI, it won't affect any of your services. You can change your mind at any time about allowing (or not allowing) us to use your CPNI, and we'll honor your decision until you change it again. If you do restrict your CPNI use, you may still get marketing from us, but it won't be from using CPNI.

** The AT&T Family of Companies are those companies that provide voice, video and broadband-related products and/or services domestically and internationally, including the AT&T local and long distance companies, AT&T Corp., AT&T Mobility, DIRECTV, and other subsidiaries or affiliates of AT&T Inc. that provide, design, market, or sell these products and/or services.*

Security and Data Storage/Retention

1. Do we sell your Personal Information?

No. We do not sell your Personal Information ➤ to anyone, for any purpose. Period.

2. How long do we keep your Personal Information?

We keep your Personal Information ➤ as long as we need it for business, tax or legal purposes. After that, we destroy it by making it unreadable or undecipherable.

3. What safeguards does AT&T have in place?

We've worked hard to protect your information. And we've established electronic and administrative safeguards designed to make the information we collect secure. Some examples of those safeguards include:

- All of our employees are subject to the AT&T Code of Business Conduct (COBC) (<https://ebiznet.sbc.com/attcode/index.cfm>) and certain statemandated codes of conduct. Under the COBC, all employees must follow the laws, rules, regulations, court and/or administrative orders that apply to our business - including, specifically, the legal requirements and company policies surrounding the privacy of communications and the security and privacy of your records. We take this seriously, and any of our employees who fail to meet the standards we've set in the COBC are subject to disciplinary action. That includes dismissal.
- We've implemented technology and security features and strict policy guidelines to safeguard the privacy of your Personal Information. Some examples are:
 - Maintaining and protecting the security of computer storage and network equipment, and using our security procedures that require employee user names and passwords to access sensitive data;
 - Applying encryption or other appropriate security controls to protect Personal Information when stored or transmitted by us;

- Limiting access to Personal Information to only those with jobs requiring such access; and
- Requiring caller/online authentication before providing Account Information so that only you or someone who knows your Account Information will be able to access or change the information.
- Although we strive to keep your Personal Information secure, no security measures are perfect, and we cannot guarantee that your Personal Information will never be disclosed in a manner inconsistent with this Policy (for example, as the result of unauthorized acts by third parties that violate the law or this Policy).

4. Do you use the information I store using one of your cloud services?

We only use it to provide you with that service, unless we first get your permission to use it for something different.

5. Will you notify me in case of a security breach?

Laws and regulations guide us in how to give you notification when certain types of sensitive information are involved in a security breach. We will provide you with notice in accordance with these laws and regulations.

6. Can I review and correct my Personal Information?

Yes. We are happy to help you review and correct the Personal Information we have associated with your account and billing records within a reasonable time. Please see the How to Contact Us About This Policy section.

Other privacy information

Understanding Personal, Anonymous & Aggregate Information

- **What is Personal Information?** Information that identifies or reasonably can be used to identify you.
- **What is Anonymous Information?** This is information that doesn't identify you and can't reasonably be used to identify you specifically.
- **What is Aggregate Information?** We take a whole bunch of people's data and combine it into anonymous groups or categories.
- **How do we use this information?** We use and share this information in many ways including research, analysis, retail marketing, and advertising. This data is also included in External Marketing & Analytics Reports.
- **Want to learn more?** Go here [▶](#).

Our Online Privacy Policy for Children

We want you to know that we don't knowingly collect personally identifying information from anyone under the age of 13 unless we first obtain permission from the child's parent or legal guardian.

1. Do you collect information about my children's use?

We do not knowingly collect personally identifying information from anyone under the age of 13 unless we first obtain permission from the child's parent or legal guardian.

2. What happens when my child is using an account not registered to them?

Internet and wireless devices and services purchased for family use may be used by children without our knowledge. When that happens, information collected may appear to us to be associated with the adult customer who subscribes to our services and will be treated as the adult's information under this Policy.

3. What can I do to help better protect my child's information?

We encourage you to spend time online with your children, and to participate in and monitor their online activity. We have developed a website that offers safety and control tools, expert resources and tips designed to help you manage technology choices and address safety concerns. Please visit AT&T Smart Controls (<https://www.att.com/shop/wireless/smartcontrols.html>) for more information.

4. What if my child has an AT&T e-mail sub-account?

If you create an AT&T e-mail sub-account for a child under the age of 13:

- With your permission we collect your child's name, nicknames and aliases, alternative e-mail address, birth date, gender and ZIP-code.
- We use the information collected on sub-accounts to create and maintain those accounts, for research, to customize the advertising and content seen on our pages and for other marketing purposes. Your child can use their AT&T e-mail address and password to log onto websites and online services provided by us, like uverse.com (<http://uverse.com/>). We and our advertising partners may collect and use information about customers who log onto those sites as described in the "Questions about the Information We Collect, How we Collect It and How We Use It" section of this Privacy Policy. A list of the advertising partners who collect information on our sites and the ability to opt-out of advertising provided by those partners is available here ([rights_choices.html?tab=privacy](#))
- We will not contact a child under the age of 13 about special offers or for marketing purposes without parental consent.
- You or your child can review, edit, update, and delete information relating to your child's sub-account and, if you no longer wish your child to have such an account, you can revoke your

consent at any time, by logging on to manage your account here
(<https://www.att.com/olam/loginAction.olamexecute?actionType=manage>).

You may e-mail us at privacypolicy@att.com (<mailto:privacypolicy@att.com>), call us at 800.495.1547 (tel:800.495.1547) or write to us at AT&T Privacy Policy, Chief Privacy Office, 208 S. Akard, Room 2100, Dallas, TX 75202 with any questions or concerns you may have about our Children's Online Privacy Policy.

Your California Privacy Rights

California Civil Code Section 1798.83 entitles California customers to request information concerning whether a business has disclosed Personal Information to any third parties for their direct marketing purposes. As stated in this Privacy Policy, we will not sell your Personal Information to other companies and we will not share it with other companies for them to use for their own marketing purposes without your consent.

California Web Site Data Collection & "Do Not Track" Notices

Web Site Data Collection: We do not knowingly allow other parties to collect personally identifiable information about your online activities over time and across third-party web sites when you use our websites and services. We provide information about the opt-out choices available to customers, and the opt-out choices provided by certain third-party website and mobile application analytics companies we use here. ([rights_choices.html?tab=privacy](#))

"Do Not Track" Notice: Because the providers of "do not track" and similar signals do not yet operate according to common, industry-accepted standards, we currently do not respond to those signals. For more information on Do Not Track, please visit www.allaboutdnt.com (<http://www.allaboutdnt.com/>).

California customers who wish to request further information about our compliance with these requirements, or have questions or concerns about our privacy practices and policies may contact us at privacypolicy@att.com (<mailto:privacypolicy@att.com>), or write to us at AT&T Privacy Policy, Chief Privacy Office, 208 S. Akard, Room 2100, Dallas, TX 75202.

Our AT&T Privacy Policy in easy to understand, FAQ format.

We understand that everyone thinks that privacy policies are long, complicated and difficult to understand. So we're going to try to make this as simple as possible.

1. What is the purpose of AT&T's Privacy Policy?

Whenever you do something like buy or use one of our products or services or visit our websites, information is created. Because we know privacy is important to you, we have the AT&T Privacy Policy to explain how we collect, use, protect, and share that created information. Thus, the main purpose of the Policy is to help you understand our relationship and how we are able to deliver and improve the services we offer.

2. How should this Policy be used?

We encourage you to read the whole policy so you will understand fully our relationship. To find specific information, here is an outline of where you will find answers to your questions about key topics:

Definitions 

1. What happens if there is a change in corporate ownership?

Information about our customers and users, including Personal Information, may be shared and transferred as part of any merger, acquisition, sale of company assets or transition of service to another provider. This also applies in the unlikely event of an insolvency, bankruptcy or receivership in which customer and user records would be transferred to another entity as a result of such a proceeding.

2. Will I be notified if there are changes to this policy?

We may update this Privacy Policy as necessary to reflect changes we make and to satisfy legal requirements. We will post a prominent notice of material changes on our websites. We will provide you with other appropriate notice of important changes at least 30 days before the effective date.

How to Contact Us About This Policy

We encourage you to contact us directly at either of these addresses below for any questions about this Privacy Policy.

- E-mail us at privacypolicy@att.com (<mailto:privacypolicy@att.com>)
- Write to us at AT&T Privacy Policy, Chief Privacy Office, 208 S. Akard, Room 2100, Dallas, TX 75202.

For questions not related to privacy click on the "Contact Us" link at the bottom of any [att.com](http://www.att.com) (<http://www.att.com/>) page. You also can access your online account from the upper right hand corner of our home page at [att.com](http://www.att.com) for additional service options.

If you have an unresolved privacy or data use concern that we have not addressed satisfactorily, you may contact our U.S.-based third-party ombudsperson program at <https://www.truste.com/consumer-resources/dispute-resolution/dispute-resolution-faqs/> (<https://www.truste.com/consumer-resources/dispute-resolution/dispute-resolution-faqs/>). If you are not satisfied with our resolution of any dispute, including with respect to privacy or data use concerns, please review our dispute resolution procedures at <http://www.att.com/disputeresolution> (<http://www.att.com/disputeresolution>).

You also have the option of filing a complaint with the FTC Bureau of Consumer Protection, using an online form (<https://www.ftccomplaintassistant.gov>), or by calling toll-free 877.FTC.HELP 877.328.4357 (tel:877.328.4357); TTY: 866.653.4261 (tel:866.653.4261). Other rights and remedies also may be available to you under federal or other applicable laws.

If you are a satellite TV subscriber, you also have certain rights under Section 338(i) of the Federal Communications Act (<https://www.govinfo.gov/content/pkg/USCODE-2011-title47/pdf/USCODE-2011-title47-chap5-subchapIII-partI-sec338.pdf>).

If you are a DIRECTV customer in Puerto Rico, you can exercise and manage your choices by visiting <https://www.directvpr.com/Midirectv/ingresar> (<https://www.directvpr.com/Midirectv/ingresar>) or by calling 787-776-5252 (tel:787-776-5252).

Customer Service Contact Numbers

- **Wireless** - 1-800-331-0500 (tel:1-800-331-0500)
- **Business** - 1-800-321-2000 (tel:1-800-321-2000)
- **Residential** - 1-800-288-2020 (tel:1-800-288-2020)
- **Spanish Language** - 1-800-870-5855 (tel:1-800-870-5855)
- **Satellite TV Services** - 1-800-DIRECTV (tel:1-800-DIRECTV) or 1-800-531-5000 (tel:1-800-531-5000)

Legacy AT&T Consumer - 1-800-222-0300 (tel:1-800-222-0300)

Customers of the following AT&T family of companies may contact us directly using the following:

AT&T Internet Services - Customers can manage newsletter subscriptions or other e-mail communications from Yahoo! By modifying their AT&T Yahoo! Marketing Preferences.

Definitions

Let's start with what we mean when we say:

Aggregate Information: We combine individual information into anonymous groups of customers or users. One way to think of it is in terms of a survey or opinion poll. Aggregate information would tell you that 80 percent of the people voted for a candidate, but not who actually voted. These groups are large enough to reasonably prevent individuals from being identified.

Anonymous Information: Information that doesn't directly identify and can't reasonably be

Anonymous information: Information that does not directly identify and cannot reasonably be used to identify an individual customer or user. We treat identifiers like cookies, advertising identifiers, device identifiers, and household identifiers as Anonymous Information except in circumstances where they can be used to identify you.

AT&T: Throughout this Policy, references to “AT&T,” “we,” “us,” and “our” include the family of AT&T companies around the world except affiliates or applications with a separate privacy policy.

Customer: Anyone who purchases or uses our products or services. When a customer purchases retail products or services for use by others, like a family account, those family members also are customers.

Mobile Application: A software application that runs on smartphones, tablet computers or other mobile devices and that allows users to access a variety of services and information.

Personal Information: Information that directly identifies or reasonably can be used to figure out the identity of a customer or user, such as your name, address, phone number and e-mail address. Personal Information does not include published listing information.

Relevant Advertising: Creates aggregate audience segments based on non-personally identifiable information about customers (like age, ethnicity, income range, a particular geographic area, and their interests) to serve advertising that is more likely to be useful to those audience segments. "Online behavioral advertising" is one type of Relevant Advertising. It uses interest categories based on the websites visited by people who are not personally identified to deliver advertising online.

Third-Party Services: Services from third-party service providers other than AT&T, such as banks or roadside assistance companies.

User: Anyone who visits our websites or uses our mobile applications.

Website: And other terms like "Internet site," "site" and "web page" all mean the same thing, namely any page or location on the Internet, no matter what device (cell phone, tablet, laptop, PC, etc.) or protocol (http, WAP, ftp or other) is used to access the page or location.

Cookies and Other Technologies

Definitions

DEFINITIONS

Let's start with what we mean when we use the word "cookie" and other related terms:

- **Cookies** are small data files. Websites place them in your browser to recognize your computer or mobile device when you return to that site. Cookies are created to keep track of your movements within the site, help you resume where you left off, remember your registered username, preferences and other customizations.

There are a couple of important things to remember about cookies:

- Disabling cookies may prevent you from using specific features on some websites. You'll need to perform the opt out procedure if you opt out of a program or service and then change computers or Web browsers, or clear or erase the digital "cookie" that lets us know you opted out.
- **Local Storage Cookies.** Local Storage is a convenient, flexible, secure and faster way to store HTTP state data. It is a method by which our web pages locally store named key/value pairs in a user's web browser. Local storage on ATT.com is mainly used to store and retrieve data in HTML pages from our domains. Local storage data is session-based and will not persist once the session is over and the browser is closed.
- **Flash Cookies** (also called Local Shared Objects or "LSOs") are similar to cookies, except that they can store more complex data. They are used to remember your settings, preferences and usage, and other similar services. Flash cookies allow functionality and availability of certain services. If disabled, these services may not function correctly. While browser cookies may be removed or blocked via web browser settings, flash cookies operate differently. Please note that setting the Flash Player to restrict or limit acceptance of Flash LSOs may reduce or impede the functionality of some Flash applications. To learn more about how to manage flash cookies, you can visit the Adobe website (<https://www.adobe.com/devnet/security.html>) and make changes at Global Storage Settings Panel (http://www.macromedia.com/support/documentation/en/flashplayer/help/settings_manage)
- **Web beacons** are small graphic images on a Web page or in an e-mail. They can be used for things like recording the pages and advertisements that users click on, or tracking how well an e-mail marketing campaign performs.
- A **widget** is a small program or application that can be embedded in a web page. It can provide real-time information, such as stock quotes or weather reports. Widgets are often provided by a third party and allow them to collect data about users viewing that page.
- A **server log** records your web activity by your computer or mobile device and plays a key role in improving web page performance and introducing new features. For example, it may record which search terms you've entered, or the links you've clicked on. It may also record your browser information such as your IP address, device type, how long you

also record your browser information, such as your IP address, device type, how long you spend on a Web page, and your browser's cookies.

- Some websites have “**social network or other third-party plug-ins.**” These plug-ins may provide information back to those sites, even if you don't click on or interact with the plug-in. It may also apply even if you don't have an account with them. Social networks or third parties may use an identifier when transmitting from your browser. This might include information about your browser type, operating system, device type, IP address and the URL of the web page where the plug-in appears. If you use social networking tools or sites, we recommend you take a moment to familiarize yourself with their privacy policies.

Managing Cookies

Most browsers will allow you to delete, disable and choose what cookies can be placed on your computer. If you want more information about controlling cookies, visit these sites for the browser you are using:

AT&T Consumer Marketing

AT&T will maintain a company-specific (Internal) Do Not Mail (DNM) list of existing and prospective residential customers who request not to receive any AT&T marketing materials via US Postal Mail.

- Consumers must contact the AT&T residential care center at 1-800-288-2020 and specify each individual member of the household and each associated address to be added to the DNM list.
- Generally AT&T processes DNM requests within 30 days. However, because our mailings are processed well in advance, you may continue to receive additional offers for some time after the request date!
 - Please note that AT&T may direct mail market to certain neighborhoods or zip codes. These offerings are delivered to all homes in a neighborhood or zip code. You may continue to receive this type of mailing even if you opt-out of receiving marketing related postal mailings from AT&T.
- DNM requests for an individual consumer at a residential address will remain in effect for THREE years from the date of request.
- AT&T does not accept DNM requests from third party providers.
- AT&T DNM requests will expire upon change of address.

AT&T will not share or disclose DNM information with any third party other than AT&T vendors responsible for direct mail marketing on AT&T's behalf.

Notifications and other non-solicitation mail pieces are exempt from this Consumer Marketing Residential DNM Policy.

AT&T reserves the right to discontinue this Consumer Marketing Residential DNM policy, and may cease accepting DNM requests or otherwise modify this Consumer Marketing Residential DNM policy.

Affiliates

Below is a list of some of the affiliates publicly recognized to be part of the AT&T family of

Below is a list of some of the affiliates publicly recognized to be part of the AT&T family of companies that have access to information collected from users and subscribers to products, services, apps, websites, or networks provided by AT&T Communications, as set forth in the AT&T Privacy Policy. This list is not exhaustive and may be subject to change.

Publicly Recognized, Non-AT&T branded affiliates of AT&T including but not limited to the following:

- Warner Media, LLC and affiliates (international and domestic), which include but are not limited to the following:
 - Home Box Office, Inc. and family of companies
 - Turner Broadcasting System, Inc. and family of companies including but not limited to: Bleacher Report, Inc., Turner Broadcasting Sales, Inc. (dba The Turner Network), Cable News Network, Inc., The Cartoon Network, Inc., Turner Classic Movies, Inc, Turner Entertainment Networks, etc.
 - Warner Bros. Entertainment Inc. and family of companies, including but not limited to Warner Bros. Home Entertainment Inc., WB Studio Enterprises, Inc., Warner Bros. Animation Inc., etc.
 - Otter Media Holdings, LLC and family of companies
- Xandr companies, which include: AT&T AdWorks LLC, and AppNexus Inc.
- Non-AT&T branded affiliates of AT&T Communications, which include, but are not limited to: Cricket entities, Game Show Network, Wayport LLC, NavLink, Inc., etc.
- Affiliates of AT&T Latin America, which include: SKY SERVIÇOS DE BANDA LARGA LTDA. (d/b/a SKY Brasil), DIRECTV Latin America, LLC, Vrio Corp. and their affiliates

AT&T Communications Companies (domestic and international), which include but are not limited to the following:

- DIRECTV, LLC and its affiliates,
- AT&T Mobility companies and all affiliates,
- AT&T landline, broadband and U-verse companies (e.g. AT&T California, AT&T Wisconsin, etc.) and other similar AT&T communication companies (e.g. AT&T Long Distance, AT&T Messaging, LLC)

Affiliates of AT&T Latin America:

- AT&T Comunicaciones Digitales, S. de R.L. de C.V., AT&T Comercialización Móvil, S. de R. L. de C.V.

Updates to the AT&T Privacy Policy

We made some updates and clarifications to our Policy effective February 15, 2019. Here is a summary:

- We've added Xandr to our list of examples of the various AT&T companies. That's the name of the advertising company we formed last year.
- We've clarified that the policy's definition of Anonymous Information includes advertising IDs when they can't be used to identify you.
- We note that advertising IDs are used and shared to deliver ads to you and help advertisers assess the effectiveness of their ad campaigns. You have the choice to opt in to some advertising programs, or say no to others. You can make your choices at att.com/cmpchoice (<http://att.com/cmpchoice>).
